## crystal & agate

Colours and patterns inspired by the irregularity and beautiful natural inclusions found within mineral formations. Cool shimmering greys underline molten blueish greens and iridescent petrol teals. These natural formations inspire yarns that echo the endless configurations of irregular patterns and tonal array of blurring colourations that are seen in rock like and crystalline materials.

## IN SEARCH OF EXCELLENCE

For AW 20/21 we have developed our collection with sustainability very much at the forefront of our concepts whilst still maintaining a strong fashion directional collection. We have taken inspiration from the origin and source of materials, where they come from and the natural beauty of colour, surface and pattern they create.

Since the need to be more sustainable has become an essential element of all fashion collections and no-longer just a niche market with specific products, we have created all our yarns to now be available with an eco-friendly alternative.

Please see our eco symbol that indicates a sustainable alternative to all our special effect yarns.

Our trends and yarns are merely a starting point to inspire you for the season, however we are more than happy to develop to any customers unique ideas and requirements.
