# animal

In a season where trends are heavily influenced by furs and skins, a strong focus is instinctively the wild and the animals that live within. A rich palette of strongly trending browns, camels though to oranges and golds, it is a trend that celebrates the beauty of our animal kingdom by swathing us in their unmistakable patterns and markings as well as enjoying the softness and raised tactile identities.

## IN SEARCH OF EXCELLENCE

For AW 20/21 we have developed our collection with sustainability very much at the forefront of our concepts whilst still maintaining a strong fashion directional collection. We have taken inspiration from the origin and source of materials, where they come from and the natural beauty of colour, surface and pattern they create.

Since the need to be more sustainable has become an essential element of all fashion collections and no-longer just a niche market with specific products, we have created all our yarns to now be available with an eco-friendly alternative.

Please see our eco symbol that indicates a sustainable alternative to all our special effect yarns.

Our trends and yarns are merely a starting point to inspire you for the season, however we are more than happy to develop to any customers unique ideas and requirements.
