## collaborate

Drawing inspiration from the *collaborative* elements of nature, where collective ideas become more powerful than the individual.

Creating a rhythm through geometric structures found in nature, enhanced by a smooth molten fluidity that adds a softness and adaptability. Radiating energy from golden hues through to an inner glow of sunburnt oranges and browns.

For SPRING SUMMER 21, we have continued to develop our collection with sustainability very much at the forefront of our concepts whilst still maintaining a strong fashion directional collection. This season the concept of coming together, sharing ideas to become stronger through collectively, inclusively and creatively collaborating. This way through listening and learning we can create less waste and offer better, more interesting solutions.

Since the need to be more sustainable has become an essential element of all fashion collections and no-longer just a niche market with specific products, we have created all our yarns to now be available with an eco-friendly alternative. Please see the symbol  that indicates a sustainable alternative to all our special effect yarns.

Our trends and yarns are merely a starting point to inspire you for the season, however we are more than happy to develop to any customers unique ideas and requirements.

Themes based on protection and preservation of our waters will continue to evolve into SS2021.

A new level of blues places an emphasis on teals as an important direction inspired by life on the and below the water with tones that offer a fluidity of similar tones.

Rippling waves and undulating movement are emulated in yarns that offer sheen and structures on the move.

## create

Breathing new life into a blues story with a basis of denim functionality and a subtle Asian influence. Solid blues, played with shadows, fresh on one side and muted on the other.

A trend that embraces a discreet and perfectly crafted aesthetic, celebrating the beauty of materials with humble exposed honesty.

Fabrics emulate painterly brushstrokes and organic lines to look artisan, handcrafted and reclaimed.

# create

Timelessly artful creativity inspired by natural forms • Elegantly simple materials underlined using a neutrality of blues • Mottled colour and painterly irregular printed effects on yarns add depth • Techniques to form ombré and gradual faded and bleed effects
